

# Recorded video presentation guidelines

Online presenters are required to upload a recorded video presentation via **YouTube**. During the conference, the recorded video will be played. However, the presenter still needs to be virtually available during the Question and Answer (Q&A) session, which takes place after the presenter's video presentation has been played.

## Details of recorded video presentation:

- **Duration** of recorded video:  
Oral presentation: *8-10 mins*  
**(Please follow strictly the allocated duration)**
- **File format** of recorded video:  
*MP4*
- **Video title:**  
*ITEC2023.PaperID.Presenter\_Name.mp4*
- **Description:**  
*Paper Title*
- **Thumbnail:**  
*Front page of PowerPoint presentation*
- **Visibility:**  
*Unlisted*

### **Additional requirements:**

1. **All recorded video presentations must be narrated with the presenter's voice and the presenter's face shown in a small window.**
2. A sample of the presentation template is provided on the next page.
3. The usage of ITEC'23 PowerPoint slide template is a must for cover. However, the next page is optional.
4. Recording tools such as [AZ Screen Recorder \(Android\)](#) or **PowerPoint Slide Show and Screencast (Windows)** are highly recommended.

### **Other important notes:**

1. Please limit the recorded video presentation between **8 and 10 minutes**. The size of the recorded video should be **below 200 Mb**.
2. Please **upload** your video presentation **by the submission deadline** (31 July 2023), so the organiser has ample time for video checking and testing.
3. Do perform several test runs before the recording to ensure the final video and audio are clear. Ensure to avoid echoes and bad acoustics.

## 2<sup>nd</sup> International TVET & Entrepreneurship Conference

"Nurturing Technopreneurship in TVET Institution towards Global Sustainability"

**MEASURING STUDENTS' INTENTION TO  
BE AN ENTREPRENEUR USING THEORY  
OF PLANNED BEHAVIOUR (TPB):  
CASE OF POLITEKNIK KOTA BHARU  
[ET439]**
